We work hard to ensure the highest integrity of our supply chain. Gray market dental distribution, however, poses a threat to the dental industry. Patterson Dental is putting patient safety first and raising industry awareness of potentially unsafe gray market or illegal black market products. Among our highest priorities are our dental customers’ reputations and their patients’ safety.

IT’S TIME TO PUT PATIENT SAFETY FIRST.

Potentially unsafe "Gray Market" or illegal "Black Market" refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

- Recalled
- Counterfeit
- Expired
- Toxic
- Mislabeled
- Banned

The U.S. dental supply market is a $6 billion industry*

Some estimate nearly 15% of the U.S. dental market is gray or black**

One manufacturer estimated 5-8% of products carrying their label were in fact counterfeit***

Deep-discount dental products that appear "too good to be true" are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe gray market and illegal black market products.
