Maintenance Plan
Available exclusively with Cavitron Packages!

Cavitron Care will send you a maintenance reminder annually to schedule service on your Cavitron for the following items:

**General Operation and Function:**
- Evaluation and verification of all clinical functions
- Evaluation and repair of malfunctions
- Installation of recommended factory upgrades

**Water System:**
- Inspection, repair/replacement of water control valves
- Testing and calibration of water flow with replacement of clogged or damaged components
- Evaluation and/or replacement of water supply line filter
- Repair or replacement of any components found to be leaking

**Electrical System:**
- Calibration of ultrasonic circuits
- Test, verify and repair all electrical functions as needed
- Inspection and repair of electrical cable connections

**Air System:** (Jet Plus and Prophy Jet Systems)
- Evaluation and/or replacement of control valves
- Replacement of internal tubing and filters
- Testing and calibration of air flow rate with replacement of needed components
- Evaluation and/or replacement of main air supply line filter
- Repair or replacement of any components found to be leaking air

**Water System:**
- Inspection, repair/replacement of water control valves
- Testing and calibration of water flow with replacement of clogged or damaged components
- Evaluation and/or replacement of water supply line filter
- Repair or replacement of any components found to be leaking

**Electrical System:**
- Calibration of ultrasonic circuits
- Test, verify and repair all electrical functions as needed
- Inspection and repair of electrical cable connections

**Air System:** (Jet Plus and Prophy Jet Systems)
- Evaluation and/or replacement of control valves
- Replacement of internal tubing and filters
- Testing and calibration of air flow rate with replacement of needed components
- Evaluation and/or replacement of main air supply line filter
- Repair or replacement of any components found to be leaking air

**WHEN SELECTING INSERTS, CONSIDER THE FOLLOWING:**

**Type of deposit**
- Inserts are uniquely made to handle different levels of deposit. Consider the force needed to remove the deposit.
- Thicker inserts with larger tips are designed for heavier levels of calculus.
- Thinner inserts with slim, adaptable tips are designed for the removal of light to moderate deposits or biofilm.

**Treatment site**
- Select inserts that are specially designed for the type of tooth anatomy you will be working on.
- Straight inserts are designed for flat tooth anatomy.
- Curved inserts are designed to give you the best results in furcations and concavities.

Each Cavitron Package includes (1) slimLINE 10S FitGrip insert
Choose (3) additional inserts from the options below!
