

LEARN HOW THE SOLEA[®] CO₂ ALL-TISSUE LASER CAN GROW YOUR PRACTICE IN

three ways:

1.

Increase efficiencies from reliably
anesthesia-free hard tissue procedures

2.

Perform virtually blood-free soft-tissue
procedures that practices often refer out

3.

Generate more referrals as a result of
a better patient experience

Join us for a limited-invitation, hands-on session with Solea[®] near you.

A Solea doctor will be available to answer all your clinical questions.

Wednesday, April 8th

Dinner Presentation: 6:00PM

Bob's Steak & Chop House

****Located in Omni Nashville Hotel****

250 5th Ave. South

Nashville, TN, 37203

Solea is the number one selling all-tissue laser in the industry. Its revolutionary software is so simple, any dentist can become a laser dentist. Solea can cut any tissue with a single-setting. It performs unlike any other laser for procedures that are reliably anesthesia-free, blood-free, suture-free and pain-free. Without anesthesia or bleeding you save time, a lot of time. No injections, no waiting, you can work in multiple quadrants, address cavities discovered during a hygiene check in the same appointment and do soft tissue procedures practices often refer out. Patients love it and our dentists do too.

Space is limited. We kindly ask for RSVPs by end of business day on Wednesday, April 1, to:

-Jon Austin, 615-681-0172
