Pulpdent Corporation

Safety Data Sheet

Trade Name: ACTIVA BioACTIVE PRODUCTS

1.0 Commercial Product Name and Supplier

1.1 Commercial product name

ACTIVA BioACTIVE-BASE / LINER

ACTIVA BioACTIVE-RESTORATIVE

1.2 Application / Use

Dental material for use by dental professional only.

1.2.2 SIC

851 Human health activity

1.2.3 Use Category

55

1.3 Manufacturer, Importer

Pulpdent Corporation

80 Oakland Street

P.O. Box 780

Watertown, MA 02472 USA

Telephone: 1 617 926-6666

Fax: 1 617 926-6262

Email: Pulpdent@pulpdent.com

1.4 Emergency Telephone Number

1-800-535-5053 (24 Hour / USA)

1.5 Authorized European Representative

International Business Solutions Ltd.

54 Mayfield Ridge

Hatch Warren, Basingstoke, RG22 4RS UK

Tel: 07989 407479 / Fax: 01256 350330

Email: s.williams5@btconnect.co.uk

2.0 Hazards Identification

2.1 Classification

2.1.1 Classification according to Regulation (EC) No 1272/2008 [CLP]

<table>
<thead>
<tr>

2.1.2 Classification according to Directive 67/548/EEC

Irritant; Xi; R 36/37/38-43

(See SECTION 16 for full text of risk phrases)

2.2 GHS Label Elements

Hazard Pictograms

Signal Word: WARNING

Restricted to use by dental professional only.

Hazard Statements

H319: Eye irritation. 2. May cause eye irritation.

H335: STOT SE. 3. May cause respiratory irritation.

H315: Skin irritation. 2. May cause skin irritation.

H317: Sensitization. 1. May cause an allergic skin reaction.

Precautionary Statements

P261: Avoid breathing vapor.

P280: Wear protective gloves and eye protection

P305+P351: If in eyes, rinse cautiously with water for several minutes.

P337+P313: If eye irritation persists, get medical advice/attention.
Safety Data Sheet

Trade Name: **ACTIVA BioACTIVE PRODUCTS**

P302+P352: If on skin, wash with plenty of soap and water.
P333+P313: If irritation or rash occurs, get medical advice/attention.
P410+P411: Protect from sunlight. Store at temperature not exceeding 27°C / 80°F.

### 3.0 Composition

#### 3.1 Chemical characterization of the preparation:
Resin-modified glass ionomer dental material

#### 3.2 Hazardous ingredients

### 4.0 First Aid Measures

#### 4.1 General Information
May be irritating to eyes, respiratory system and skin. Avoid contact with eyes and skin. Do not inhale vapors. May cause sensitization by skin contact. Show this safety data sheet to medical personnel. Get medical attention in case of uncertainty.

#### 4.2 Inhalation
Move to fresh air. Administer oxygen/CPR as needed. Seek medical attention.

#### 4.3 Skin Contact
Take off contaminated clothing. Wash skin thoroughly with soap and water.

#### 4.4 Eye Contact
Keep eyelids apart; flush with running water for 15+ minutes. Get medical attention.

#### 4.5 Ingestion
Rinse mouth with water. Do not induce vomiting. Get immediate medical attention. May be irritating to mucous membranes. Never give anything by mouth to an unconscious person.

#### 4.6 Precautions for first responders
Ventilate the area. Wear eye and skin protection.

#### 4.7 Information for physicians
Symptoms: Irritation or redness in eyes, throat or on skin.
Hazards: May be irritating to eyes, respiratory system, skin. May be sensitizing by skin contact.
Treatment: As above under First Aid.

### 5.0 Fire Fighting Measures

#### 5.1 Suitable extinguishing media
Carbon dioxide, dry chemical, alcohol foam, or water fog. Water spray may be used to keep fire exposed containers cool.

#### 5.2 Extinguishing media to avoid
Do not use direct water stream

#### 5.3 Special exposure hazards in a fire
Heat may cause polymerization with rapid release of energy.

#### 5.4 Special protective equipment for fire-fighters
A self-contained breathing apparatus should be worn by firefighting personnel. Cool exposed containers with water spray to prevent polymerization under fire conditions.

### 6.0 Accidental Release Measures

#### 6.1 Personal precautions.
Wear safety glasses, gloves and lab coat.
6.2 Environmental precautions

Avoid releasing large amounts of uncured material into the environment. Cured / set-up material is, to our knowledge, inert.

6.3 Method for clean up

Contain spilled material. Absorb or wipe up spill with suitable material (e.g. paper towels). Collect for disposal in a covered container. Wash area of spill with alcohol or soap and water.

7.0 Handling and Storage

7.1 Handling

For use only by dental professionals. Practice good hygiene. Avoid direct/strong light sources, extremes of temperature (>27°C/80°F, <5°C/40°F), contamination, cross contamination of two-part materials. Recap immediately after use.

7.2 Storage

Keep container tightly closed. Store in original container at cool room temperature (<25°C). Avoid direct/strong light, sources of ignition, extremes of temperature. Shelf life for properly stored, unopened product is two years from date of manufacture.

7.3 Specific uses

Dental base/liner, cement or restorative

8.0 Exposure Controls / Personal Protection

8.1 Exposure limit values

PEL: Not established. TLV: Not established.

8.2 Exposure controls

8.2.1 Occupational exposure controls

No special equipment required under normal conditions of use.

8.2.1.1 Respiratory protection

None required. Good general ventilation is sufficient to control any airborne vapors.

8.2.1.2 Hand protection

No special requirements other than the usual surgical gloves.

8.2.1.3 Eye protection

No special requirements other than the usual safety glasses worn by dental staff.

8.2.1.4 Skin protection

No special requirements. Good personal hygiene, safety practices and wearing a lab coat should protect dental staff from unnecessary exposure to uncured material.

8.2.1.5 Other controls

Emergency eye wash fountain should be available. Wash hands after use.

8.2.2 Environmental exposure controls

Cure material before disposing.

9.0 Physical and Chemical Properties

9.2.13 Evaporation rate  
Not determined

10.0 Stability and reactivity

10.1 Conditions to avoid  
Temperature > 38°C, intense light, cross-contamination.

10.2 Materials to avoid  
Reducing and oxidizing agents, peroxides, amines.

10.3 Hazardous decomposition products  
Under fire conditions, amounts greater than that supplied in this product may polymerize with heat build-up, release of oxides of carbon and nitrogen.

10.4 Further information  
Stable material if stored and used as directed. Polymerization will occur when light-cured material is exposed to direct light.

11.0 Toxicological information

11.1 Acute toxicity  
Finished products in paste form present a minimal health hazard under normal conditions of use and in the quantities necessary for dental procedures.

Sodium fluoride: Oral rat LD_{50}: 180 mg/kg

Silica, amorphous: Oral rat LD_{50}: 3160 mg/kg

11.2 Irritation and corrosiveness  
May be irritating to eyes, respiratory tract, mucous membranes or skin on contact or with prolonged exposure.

11.3 Sensitization  
May be sensitizing. Prolonged or frequent skin contact may cause allergic skin reactions in some susceptible individuals.

11.4 Sub-acute, sub-chronic and prolonged toxicity  
Prolonged and/or frequent skin contact may cause allergic skin reactions in susceptible individuals. Prolonged exposure to large amounts (more than in this product) may cause eye and respiratory irritation.

11.5 Carcinogenicity, Mutagenicity, Reproductive Toxicity  
None known

11.6 Empirical data  
Biocompatibility has been tested and found to be acceptable.

11.7 Clinical experience  
ACTIVA BioACTIVE PRODUCTS are new products that have been evaluated by dentist consultants. There have been no reports of adverse events.

12.0 Ecological Information

12.1 Ecotoxicity  
Avoid release of uncured material into the environment. To the best of our knowledge, polymerized material is inert. No other information is available. Follow all government regulations.

13.0 Disposal Considerations

13.1 Regulations  
Follow all local and national government regulations in disposing material or contaminated packaging.

14.0 Transport Information

14.1 Restrictions  
None. Not regulated.
