AdvantageDental Products, Inc.

Material Safety Data Sheet HEMASEAL & CIDE DESENSITIZER

#### 1. IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

#### **HEMASEAL & CIDE DESENSITIZER**

MANUFACTURED FOR: Advantage Dental Products, Inc. 4498 Klais Dr. Clarkston, MI 48348

# FOR INFORMATION CALL: (800) 388-6319 or (248) 391-1625

**EMERGENCY TELEPHONE:** 

ChemTel, Inc. (United States/ Canada) 1-800-255-3924 (International) 813-248-0585 (consult operator for dialing United States from overseas)

Description: DESENSITIZING AGENT Physical Form: LIQUID NFPA Profile: HEALTH 1 FLAMMABILITY 1 INSTABILITY/REACTIVITY 0 Note: NFPA = National Fire Protection Association

Odor: PLEASANT ODOR

Color: CLEAR

#### 2. CHEMICAL COMPONENTS

2-HYDROXYETHYLMETHACRYLATE CAS Number: 868-77-9 EC Number: 212-782-2 CHLORHEXIDINE DIGLUCONATE CAS Number: 18472-51-0 EC Number: 252-354-0 This is not a hazardous material as defined in the OSHA Hazard Communication Standard - Substance non-classified according to Directive 67/548/EEC.

#### 3. EFFECTS OF OVEREXPOSURE

Acute Effects Eye: Moderate irritation, tearing, and pain may occur. Skin: Irritation may occur from exposure to material; this is more likely with prolonged or chronic exposure. Inhalation: Irritation and coughing may occur. Oral: Headaches, dizziness, nausea, vomiting, unconsciousness

Prolonged/Repeated Exposure Effects Skin/Eyes: See above. Inhalation: See above Oral: See above

Signs and Symptoms of Overexposure: See Acute Effects Sections. Medical Conditions Aggravated by Exposure: Respiratory conditions, skin disorders. The above listed potential effects of overexposure are based on actual data, results of studies performed upon similar compositions, component data and/or expert review of the product. Please refer to Section 11 for the detailed toxicology information.

#### 4. FIRST AID MEASURES

Eye: Flush eyes with running water for at least 15 minutes, while keeping the eyelids wide open. Skin: Wash affected areas with soap and water. Seek medical help for severe or persistent irritation. Inhalation: Remove patient to fresh air; seek medical attention for serious or persistent symptoms. Oral: Give water if patient is conscious and alert, then seek immediate medical assistance. Comments: Treat symptomatically.

> Effective Date: 16 September 2009 Page: 1 of 4

# AdvantageDental Products, Inc.

Material Safety Data Sheet HEMASEAL & CIDE DESENSITIZER

#### 5. FIRE FIGHTING MEASURES

Flash Point: Not Determined

Autoignition Temperature: Not determined.

Flammability Limits in Air: Not determined.

Extinguishing Media: Choose media to fight surrounding fire, no restriction on media selection.

Fire Fighting Measures: Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Vapor buildup may lead to flashback; use of water fog to avoid flash fires is advisable.

Unusual Fire Hazards: May form explosive vapors which can travel along ground (flashback)

Hazardous Decomposition Products: Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds, soot/smoke.

#### 6. ACCIDENTAL RELEASE MEASURES

Containment/Clean up: Spilled material can be a slipping hazard. Observe all personal protection equipment recommendations described in Sections 5 and 8. Use absorbent cloth for small spills, while an absorbent material like clay is advised for large spills. Treated absorbed material as flammable. Small quantities remaining after cleanup may be washed with soap and water. Place material into a closed and labeled container. Prevent discharges into the environment (sewers, rivers, soils, etc.). For disposal methods, refer to section 13. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements. *Note: See section 8 for Personal Protective Equipment for Spills.* 

#### 7. HANDLING AND STORAGE

Avoid heating the product above 40°C. Keep container closed and store in cool, dark, dry place. Keep away from ignition and heat sources. No open flames or sparks – no smoking. Avoid formation of vapors. Follow the protective measures given in section 8.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### **Component Exposure Limits**

There are no components with workplace exposure limits.

#### **Engineering Controls**

Local Ventilation: Normal ventilation should be acceptable..

General Ventilation: Recommended.

#### Personal Protective Equipment for Routine Handling

Eyes: Use proper protection - safety glasses as a minimum.

Skin: Avoid contact with material – apron may be needed.

Suitable Gloves: Protective gloves.

Inhalation: Needed if respiratory irritation occurs.

Suitable Respirator: Not normally needed – use organic vapor respirator if irritation occurs.

#### Personal Protective Equipment for Spills

Eyes: Use proper protection - safety glasses as a minimum.

Skin: Wear PPE that prevents skin contact. Protective gloves as a minimum are needed.

Inhalation/Suitable Respirator: Use organic vapor respirator for large spills or if irritation occurs

Precautionary Measures: Avoid eye and skin contact with product. Use reasonable care.

Note: These precautions are for normal handling of small quantities – handling of large bulk quantities may require extra Personal protective equipment.

Effective Date: 16 September 2009 Page: 2 of 4

Material Safety Data Sheet HEMASEAL & CIDE DESENSITIZER

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical Form: Liquid Color: Clear Odor: Pleasant Odor Reactivity in Water: None Specific Gravity @ 25°C: 1.03 **Oxidizing Properties: None** Viscosity: Not determined. Explosive Properties: Dust explosion possible Freezing/Melting Point: Not determined. pH: Not Determined. Boiling Point/Range: Not determined. Vapor Density: >1 (Air = 1) Vapor Pressure @ 25°C: Not determined.. Evaporation Rate: >1 (Butyl Acetate = 1) Volatile Content: Not determined. Solubility (Water): Soluble Solubility (Solvents): Expected to be soluble in alcohols Note: The above information is not intended for use in preparing product specifications.

#### **10. STABILITY AND REACTIVITY**

Chemical Stability: Normally Stable; Potential instability at elevated temperatures (See section 5). Hazardous Polymerization: None Conditions to Avoid: Elevated temperatures to cause decomposition, formation of dust clouds. Materials to Avoid: Reducing and oxidizing agents, Ultraviolet light.

#### **11. TOXICOLOGICAL INFORMATION**

**Special Hazard Information on Components:** 

2-HYDROXYETHYLMETHACRYLATE Acute oral toxicity (LD<sub>50</sub>): CHLORHEXIDINE DIGLUCONATE Acute oral toxicity (LD<sub>50</sub>): **Potential Acute Health Effects:** See Section 3. 3275 mg/kg [Mouse].

1260 mg/kg [Mouse].

Potential Chronic Health Effects: None

Signs and Symptoms of Exposure: Transient respiratory and eye irritation.

Medical Conditions Generally Aggravated by Exposure: Respiratory and skin disorders. Carcinogenic or Potential Carcinogenic Effects: No ingredient listed as a carcinogen. Other Potential Health Effects: None known.

#### **12. ECOLOGICAL INFORMATION**

**Environmental Effects:** Product may be harmful to aquatic environments; avoid discharging large quantities of product into sewers and the general environment (lakes, rivers, ponds, soil, etc.)

#### 13. DISPOSAL CONSIDERATIONS

RCRA Hazard Class (40 CFR 261) - None

**Waste Disposal:** Send product to either an industrial waste incinerator or industrial landfill. Dispose of in accordance with all federal, state, and local regulations.

#### **14. TRANSPORT INFORMATION**

DOT Road Shipment Information (49 CFR 172.101) Not subject to DOT. Ocean Shipment (IMDG) Not subject to IMDG code. Air Shipment (IATA) Not subject to IATA regulations.

#### **15. REGULATORY INFORMATION**

Contents of this MSDS comply with the OSHA Hazard Communication Standard 29 CFR 1910.1200. **TSCA Status:** All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

#### **EPA SARA Title III Chemical Listings**

Section 302 Extremely Hazardous Substances: None. Section 304 CERCLA Hazardous Substances: None.

Effective Date: 16 September 2009 Page: 3 of 4

#### Material Safety Data Sheet **HEMASEAL & CIDE DESENSITIZER**

#### 15. REGULATORY INFORMATION Continued

Section 312 Hazard Class: Yes Acute: Yes Chronic: No Fire:

Pressure: No Reactive: No

#### Section 313 Toxic Chemicals: None present or none present in regulated quantities.

#### **Supplemental State Compliance Information**

#### California

Warning: This product contains the following chemical(s) listed by the State of California under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) as being known to cause cancer, birth defects or other reproductive harm. None known.

#### Massachusetts

No ingredient regulated by MA Right-to-Know Law present.

#### Minnesota

No ingredient regulated by MN Right-to-Know Law present.

#### **New Jersey**

No ingredient regulated by NJ Right-to-Know Law present.

Pennsylvania

No ingredient regulated by PA Right-to-Know Law present.

#### Canada Information

WHMIS Classification D2-B: Materials Causing Other Toxic Effects Components are listed on the Canadian Domestic Substances List.

#### EU Information – R and S Phrases, EEC Symbols

R22 Harmful if swallowed. R36/37/38 Irritating to eyes, respiratory system and skin. R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

S2 Keep out of the reach of children.

S7 Keep container tightly closed.

S9 Keep container in a well-ventilated place.

S16 Keep away from sources of ignition — No smoking.

S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

## **EU/EEC SYMBOL - Irritant**

#### **16. OTHER INFORMATION**

Prepared by: ChemTel Inc.

Some of the information presented and conclusions drawn herein are from sources other than direct test data on the product itself. The information in this MSDS was obtained from sources that we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or method of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage, or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. If the product is used as a component in another product or used in a way other than recommended by the Company, this MSDS information may not be applicable.

#### 2 Hazard(s) identification

#### · Classification of the substance or mixture

GHS07

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2A H319 Causes serious eye irritation.

Skin Sens. 1 H317 May cause an allergic skin reaction.

#### Additional information:

There are no other hazards not otherwise classified that have been identified.

0 percent of the mixture consists of ingredient(s) of unknown toxicity.

#### · Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS).

Hazard pictograms

· Signal word Warning

 Hazard-determining components of labeling: 2-hydroxyethyl methacrylate
 Hazard statements H315 Causes skin irritation. H319 Causes serious eve irritation.

H217 May apues an allergia skin reacti

H317 May cause an allergic skin reaction.

#### 4 First-aid measures

· Description of first aid measures

General information: No special measures required.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately rinse with water.

If skin irritation or rash occurs: Get medical advice/attention.

#### • After eye contact:

Protect unharmed eye.

Remove contact lenses if worn, if possible.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

- · Information for doctor:
- Most important symptoms and effects, both acute and delayed Allergic reactions
- · Danger No further relevant information available.

Indication of any immediate medical attention and special treatment needed

Treat skin and mucous membrane with antihistamine and corticoid preparations.

#### 5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- · For safety reasons unsuitable extinguishing agents: None.
- · Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

- Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information Cool endangered receptacles with water fog.

#### 6 Accidental release measures

#### · Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

Wear protective equipment. Keep unprotected persons away.

• Environmental precautions: Dilute with plenty of water.

For large spills, respiratory protection may be advisable. • **Protection of hands:** 

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

#### Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

May produce an allergic reaction. · Carcinogenic categories NTP (National Toxicology Program) None of the ingredients is listed. **OSHA-Ca** (Occupational Safety & Health Administration) None of the ingredients is listed. · Probable Routes of Exposure Ingestion. Inhalation. Eye contact. Skin contact. · Acute effects (acute toxicity, irritation and corrosivity): None. • Repeated Dose Toxicity: Repeated exposures may result in skin and/or respiratory sensitivity. 12 Ecological information

· Toxicity

- · Aquatic toxicity: The material is harmful to the environment.
- Persistence and degradability The product is biodegradable after prolonged adaptation.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Harmful to fish
- · Additional ecological information:
- · General notes:

This statement was deduced from the properties of the single components.

This statement was deduced from products with a similar structure or composition.

The product may not be released into the environment without control.

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

Do not allow product to reach ground water, water course or sewage system, even in small quantities.
