SAFETY DATA SHEETS

This SDS packet was issued with item: 074486080

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

*	1 Identification			
	· Product identifier			
	 Trade name: Gluma Comfort Bond + Desensitizer 			
	Application of the substance / the mixture Dental bonding material			
	Details of the supplier of the safety data sheet Manufacturer/Supplier: Kulzer GmbH Leipziger Straße 2, 63450 Hanau (Germany) Tel.: +49 (0)800 4372522			
	 Information department: Tel. +1 (800) 431-1785 Fax: +1 (800) 522-1545 e-mail: customer.servicehkna@kulzer-dental.com Emergency telephone number: Emergency CONTACT (24-Hour-Number) GBK/Infotrac ID 105860: (domestic) 1 800 535 5053 or international (001) 352 323 3500 			
*	2 Hazard(s) identification			
	· Classification of the substance or mixture			
	Flam. Liq. 3 H226 Flammable liquid and vapor.			
	Skin Irrit. 2 H315 Causes skin irritation.			
	Eye Dam. 1 H318 Causes serious eye damage.			
	Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. Skin Sens. 1 H317 May cause an allergic skin reaction.			
	 Label elements GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms 			
	GHS02 GHS05 GHS08			
	· Signal word Danger			
	 Hazard-determining components of labeling: 2-hydroxyethyl methacrylate glutaral 			
	4-methacryloxyethyltrimellitic acid anhydride maleic acid			
	• Hazard statements Flammable liquid and vapor.			
	Causes skin irritation. Causes serious eye damage.			
	May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction.			
	 Precautionary statements Keep away from heat/sparks/open flames/hot surfaces. No smoking. Use explosion-proof electrical/ventilating/lighting/equipment. 			
	Use explosion-proof electrical/ventilating/lighting/equipment. (Contd. on page 2)

4 First-aid measures

· Description of first aid measures

- · General information
- Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.
- · After inhalation Supply fresh air; consult doctor in case of complaints.
- After skin contact Immediately wash with water and soap and rinse thoroughly.
- · After eye contact
- Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing
- Rinse out mouth and then drink plenty of water.
- Immediately call a doctor.
- If symptoms persist consult doctor.
- Composition based on methacrylates
- Information for doctor
 - Most important symptoms and effects, both acute and delayed No further relevant information available.
 - · Indication of any immediate medical attention and special treatment needed
 - No further relevant information available.

5 Fire-fighting measures

· Extinguishing media

- · Suitable extinguishing agents
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents Water with full jet.
- Special hazards arising from the substance or mixture

Can form explosive gas-air mixtures.

- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- · Protective equipment: Mount respiratory protective device.
- · Additional information -

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
 Wear protective equipment. Keep unprotected persons away.
 Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up: Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues). Dispose contaminated material as waste according to item 13. Send for recovery or disposal in suitable receptacles.
- **Reference to other sections** See Section 13 for disposal information. See Section 8 for information on personal protection equipment.

7 Handling and storage

· Handling

- Precautions for safe handling
- Keep receptacles tightly sealed.
- Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.
- · Conditions for safe storage, including any incompatibilities
 - · Storage
 - Requirements to be met by storerooms and receptacles: No special requirements.
 - · Information about storage in one common storage facility: Not required.
 - · Further information about storage conditions: Keep cool, if possible (not above 25 °C).
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

64-17-5 ethanol

- PEL () 1900 mg/m³, 1000 ppm
- REL () 1900 mg/m³, 1000 ppm
- TLV () 1880 mg/m³, 1000 ppm

111-30-8 glutaral

- REL () Short-term value: C 0.8 mg/m³, C 0.2 ppm
- TLV () Short-term value: C 0.2 mg/m³, C 0.05 ppm

" SEN

· Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

- Personal protective equipment
 - General protective and hygienic measures Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.
 - · Breathing equipment:

Not necessary with efficient local exhaust. If exposition to vapours is possible, use breathing protective mask (filter A).

USA

 Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation If skin contact cannot be avoided, protective gloves are recommended to avoid possible sensitization. Solvent resistant gloves Check protective gloves prior to each use for their proper condition. recommended Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Butyl rubber, BR

Nitrile rubber, NBR

• Eye protection: Tightly sealed goggles.

· Body protection: Light weight protective clothing

12 Ecological information

· Toxicity

· Aquatic toxicity:

868-77-9 2-hydroxyethyl methacrylate

LC50/96h 227 mg/l (fish)

· Persistence and degradability No further relevant information available.

- · Behavior in environmental systems:
 - · Bioaccumulative potential No further relevant information available.
 - · Mobility in soil No further relevant information available.
- · Additional ecological information:

· General notes:

Do not allow product to reach ground water, water course or sewage system, even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground.

- · Results of PBT and vPvB assessment
 - · PBT: Not applicable.
 - vPvB: Not applicable.

4-methacryloxyethyltrimellitic acid anhydride maleic acid Hazard statements Flammable liquid and vapor. Causes skin irritation. Causes serious eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. Précautionary statements Keep away from heat/sparks/open flames/hot surfaces. No smoking. Use explosion-proof electrical/ventilating/lighting/equipment. [In case of inadequate ventilation] wear respiratory protection. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

· Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
