SAFETY DATA SHEETS

This SDS packet was issued with item: 074567822

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

Material Safety Data Sheet According to 91/155 EEC

Printing date 02.09.2004 Reviewed on 02.09.2004 1 Identification of substance Product details Trade name: Flexitime Xtreme Heavy Tray base · Application of the substance / the preparation Dental impression material · Manufacturer/Supplier: Heraeus Kulzer GmbH & Co. KG Grüner Weg 11, D-63450 Hanau Tel.: 0800 4372522 · Informing department: Dr. Palussek Tel.: +49 2133 51-4911 / Fax: +49 2133 51-5016 · Emergency information: Call +49 30 19240 (24 hours). 2 Composition/Data on components: Chemical characterization Description: 2-component material comprising base paste and matching catalyst paste for addition curing Dangerous components: Void · Additional information For the wording of the listed risk phrases refer to section 16. 3 Hazards identification · Hazard designation: void · Information pertaining to particular dangers for man and environment The product does not have to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Classification system The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies. 4 First aid measures · General information No special measures required. · After skin contact The product is not skin irritating. · After eye contact Rinse opened eye for several minutes under running water. · After swallowing Initiate vomiting and consult a doctor. 5 Fire fighting measures Suitable extinguishing agents void Protective equipment: No special measures required. 6 Accidental release measures

- · Person-related safety precautions: Not required.
- · Measures for environmental protection: No special measures required.
- Measures for cleaning/collecting:
- Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
- · Additional information: No dangerous materials are released.

7 Handling • Handling • Information for safe handling: No special measures required. • Information about protection against explosions and fires: No special measures required. • Storage

- · Requirements to be met by storerooms and containers: No special requirements.
- Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.

8 Exposure controls and personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Components with critical values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

• Additional information: The lists that were valid during the compilation were used as basis.

· Personal protective equipment

- General protective and hygienic measures
- The usual precautionary measures should be adhered to in handling the chemicals.
- · Breathing equipment: Not required.
- · Protection of hands: Not required.
- Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

- For the permanent contact in work areas without heightened risk of injury (e.g. Laboratory) gloves made of the following material are suitable: PVC or PE gloves
- Eye protection: not absolutely neccessary
- · Body protection: Light weight protective clothing

Material Safety Data Sheet According to 91/155 EEC

Printing date 02.09.2004

Reviewed on 02.09.2004

Trade name: Flexitime Xtreme Heavy Tray base

Solubility in / Miscibility with
 Water:

Not miscible or difficult to mix

10 Stability and reactivity

- · Conditions to be avoided: No decomposition if used and stored according to specifications.
- · Dangerous reactions No dangerous reactions known
- · Dangerous products of composition: None

11 Toxicological information

· Acute toxicity:

- · Primary irritant effect:
 - on the skin: No irritant effect.
 - · on the eye: No irritant effect.
- · Sensitization: No sensitizing effect known.
- · Additional toxicological information:

The product is not subject to classification according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version.

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information:

· General notes:

Water hazard class 1 (calculated according to VwVwS): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.

13 Disposal considerations

· Product:

· Recommendation Smaller quantities can be disposed with household garbage.

· European waste catalogue

18 01 06 chemicals consisting of or containing dangerous substances

· Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations.

14 Transport information

Land transport ADR/RID and GGVS/GGVE (cross-border/domestic)
 ADR/RID-GGVS/E Class: -

No

· Maritime transport IMDG/GGVSea:

· IMDG/GGVSea Class:

• Marine pollutant:

15 Regulatory information

· Designation according to EC guidelines:

Observe the normal safety regulations when handling chemicals The product is not subject to identification regulations under EC Directives and the Ordinance on Hazardous Materials (GefStoffV).

The product is not subject to classification according to the calculation methods of the "General Classification Guideline for Preparations of the EC" as issued in the last version.

National regulations

Water hazard class:

Water hazard class 1 (calculated according to VwVwS): slightly hazardous for water.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Not required.

- Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up:
- Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues).
- Reference to other sections No dangerous substances are released.

7 Handling and storage

- · Handling
 - Precautions for safe handling No special measures required.
 - Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
 - Storage
 - Requirements to be met by storerooms and receptacles: No special requirements.
 - · Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: None.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

• Components with limit values that require monitoring at the workplace:

1317-65-3 Calciumcarbonat, nat., gem.

- PEL 15*; 5** mg/m³ *Total dust **Respirable fraction
- REL 10*: 5** mg/m³
 - *Total dust **Respirable fraction
- TLV 10 mg/m³
- (e)

Additional information: The lists that were valid during the creation were used as basis.

· Exposure controls

- Personal protective equipment
 - General protective and hygienic measures Wash hands before breaks and at the end of work.
 - · Breathing equipment: Not required.
 - Protection of hands:

Check protective gloves prior to each use for their proper condition.

- recommended
 - Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- For the permanent contact of a maximum of 15 minutes gloves made of the following *materials are suitable:* Butyl rubber, BR Nitrile rubber, NBR

- Eye protection: Not absolutely necessary.
- · Body protection: Light weight protective clothing

9 Physical and chemical properties

· Appearance: · Form:	Popty
· Color:	Pasty Different according to coloring
· Odor:	Product specific
Odor threshold:	Not determined.
· pH-value:	Not determined.
 Change in condition Melting point/Melting range: Boiling point/Boiling range: 	undetermined undetermined
· Flash point:	Not applicable
· Flammability (solid, gaseous)	Not applicable.
· Ignition temperature:	
 Decomposition temperature: 	Not determined.
· Auto igniting:	Product is not selfigniting.
· Danger of explosion:	Product does not present an explosion hazard.
Explosion limits:	Not determined.
· Upper:	Not determined.
· Vapor pressure:	Not determined.
 Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate 	1.5 g/cm³ (12.518 lbs/gal) Not determined. Not determined. Not determined.
Solubility in / Miscibility with Water:	Not miscible or difficult to mix
· Partition coefficient (n-octanol/wat	er): Not determined

10 Stability and reactivity

· Reactivity No further relevant information available.

- · Possibility of hazardous reactions No dangerous reactions known
- Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: none

11 Toxicological information

· Information on toxicological effects

• Acute toxicity:

· LD/LC50 values that are relevant for classification:

Polydimethylsiloxan

Oral

Oral LD50 > 5000 mg/kg (rat)

Polydimethysiloxan Oral LD50 > 5000 mg/kg (rat)

Sensitization Sensib. nicht sensib. (guinea pig) (OECD 406; nach Magnusson-Kligman)

24938-91-8 poly(oxy-1,2-ethanediyl), α-tridecyl-ω-hydroxy-

LD50 7400 mg/kg (rat)

· Primarv irritant effect:

· on the skin: No irritant effect.

• on the eye: No irritating effect. • Sensitization: No sensitizing effects known.

Additional toxicological information:

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

Carcinogenic categories

None of the ingredients is listed.

12 Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
 - · Bioaccumulative potential No further relevant information available.
 - · Mobility in soil No further relevant information available.
- · Additional ecological information:
 - · General notes:
 - Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
- Results of PBT and vPvB assessment
 - **PBT:** Not applicable.
 - vPvB: Not applicable.
- Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

· Recommendation Smaller quantities can be disposed of with household waste.

Uncleaned packagings:
 Recommendation: Disposal must be made according to official regulations.
