3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No	Weight-%
Ethyl Alcohol	64-17-5	Proprietary

If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. FIRST-AID MEASURES**First Aid Measures**

Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.
Skin Contact	Wash skin with soap and water. Take off contaminated clothing and wash it before reuse. Get medical attention if irritation occurs.
Inhalation	Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
Ingestion	Do not induce vomiting. Promptly drink several glasses of water or milk to dilute. Immediately call a poison center or doctor/physician.

Most important symptoms and effects

Symptoms	May cause eye and skin irritation. Ingestion of larger amounts may cause drunkenness, nausea, and vomiting. Aspiration into lungs can produce severe lung damage and is a medical emergency. Inhalation of vapors can irritate the respiratory tract, causing sore throat and coughing. Inhalation of high concentrations may cause central nervous system effects characterized by headache, dizziness, and unconsciousness. May cause liver and kidney damage. Repeated or prolonged contact with skin may cause dermatitis. Product may also cause loss of appetite, nervousness, and memory loss.
-----------------	---

Indication of any immediate medical attention and special treatment needed**Notes to Physician**

Treat symptomatically.
