## 4. FIRST AID MEASURES

### 4.1 Description of First Aid Measures:

<b>Eye</b>	Flush eyes thoroughly with water for several minutes, while holding the eyelids apart. Remove contact lenses if easy to do so. Continue rinsing. Get medical attention if irritation persists.
<b>Skin</b>	Remove contaminated clothing and shoes. Flush skin thoroughly with water for several minutes. Get medical attention if irritation or rash occurs. Launder clothing before re-use.
<b>Inhalation</b>	None needed under normal use conditions. If irritation develops, remove to fresh air. Get medical attention if symptoms persist.
<b>Ingestion</b>	If swallowed, drink 1 or 2 glasses of water to dilute. Never give anything by mouth to an unconscious or convulsing person. Get medical attention if discomfort persists.

### 4.2 Most Important Symptoms and Effects, Both Acute and Delayed:

Direct contact with eye may cause moderate eye irritation. Contact with skin, eyes or mucous membranes may cause numbness. Repeated skin contact may cause burning and itching of the skin with dermatitis or rash. May cause skin sensitization.

### 4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed:

If skin sensitization occurs, discontinue use and get medical attention. Treatment of overexposure should be directed at the control of symptoms and clinical conditions.
