

Spark your imagination as you experience the rich color options Midmark has to offer. Mix and match cabinet panel and countertop colors without the guesswork so you can easily visualize your space.

CABINET HANDLE AND PANEL STYLING

Synthesis Cabinetry has multiple styling options to allow you to put your unique signature on a space. From woodgrains to neutral solids, choose a finish and panel style that will complement your space. Multiple handle options are also available, each with a distinct shape and finish, including an anti-microbial option.

CABINET FINISHES

Membrane-pressed thermofoils seal the Synthesis MDF door and drawer panels, ideal for infection control and durability. A patent-pending process is also used to adhere the thermofoil to the steel structure on woodgrain and metallic colors. This dimensionally flexible material provides a continuous, seamless surface, eliminating the need for panel edgebanding while offering a high level of scratch and stain resistance.

SOLID SURFACE COUNTERTOPS

Solid surface is a unique material made from an advanced blend of natural minerals and acrylic polymer. It has proven itself to be a remarkably durable, versatile material that's an ideal surface for dental environments.

Because it is non-porous, stains do not penetrate the surface. It is a completely solid surface that will not support microbial growth when properly cleaned.

The superior durability of solid surface allows it to survive impacts, nicks and cuts that blemish most surfaces. With the ability to buff away nicks and scratches, solid surface countertops will look and perform like new for many years.

QUARTZ COUNTERTOPS

Quartz countertops are 93% pure quartz crystal, which gives them a natural depth and radiance without the imperfections common in unimproved stone. And, because quartz is one of nature's strongest materials, it is also incredibly durable, exceptionally tough and scratch resistant.

Quartz is virtually maintenance free. This smooth, non-porous surface resists even the toughest stains and will retain its luster for many years without the need for sealants or waxes.

LAMINATE COUNTERTOPS

Offering a variety of selections, laminate countertops provide function while complementing any style of decor. Today's choices come in more contemporary colors and patterns, looking more realistic than ever before.

Laminate countertops are easy to clean and maintain, requiring no special maintenance. Costing less than solid surface, quartz and engineered stone, laminate is an affordable solution for your countertop needs.

SYNTHESIS COLOR AND STYLE OPTIONS

These options allow you to put your unique signature on a space, whether it is in one office or a multi-facility organization.
